

## About the Route

---

- Productivity ranks 9 of 18 in passengers per revenue hour
- The two one-way loops can be confusing for riders and make travel indirect

## Public Comments

---

- No public comment

## Opportunities

---

- Restructure service in Ceres to eliminate one-way loops, make service easier to understand, and reduce duplication of service
- The transfer location at the intersection of Herndon Avenue/Hatch Road is not ideal at this time and could be moved to another location
- Provide better residential connection to new Ceres Walmart

## Proposed Changes

---

- Where it goes: Route would travel between Modesto Transit Center and Ceres Walmart, via Howard Prep. Service west of Hwy 99 would be served on a new Route 42. Some stops in the Bret Harte neighborhood would no longer be served and may require riders to walk up to 0.35 mile to access service.
- When it runs: No change
- How often it runs: Improve to 30 mins all day
- Other changes: Improve reliability

# Route 29
