

About the Route

- Productivity ranks 5 of 18 in passengers per revenue hour
- High level of reliability
- A series of one-way loops make the route confusing and indirect.

Public Comments

- No public comment

Opportunities

- Restructure service in Ceres to eliminate one-way loops, make service easier to understand, and reduce duplication of service
- The transfer location at the intersection of Herndon Ave/Hatch Rd is not ideal at this time and could be moved to another location

Proposed Changes

- Where it goes: Route would be the same northbound and southbound serving the Bret Harte neighborhood in both directions. Existing Route 29 riders may need to walk up to 0.35 mile to access service on Route 42.
- When it runs: No change
- How often it runs: No change
- Other changes: No change

Route 42
